

CARSON'S OPENING SCHOOL DAY (With Apologies to the Teachers)

### A Test Case

A few days ago the Appeal mentioned that if Carson was ever to become a business town of note that her people should patronize home merchants. Instead of sending away for goods of any quality. While all agree that this is the plan that would work untold benefits to the city and her merchants, yet few give it consideration enough to really practice the plan.

Yesterday a real test was made. Two ladies came to a furniture store in this city with samples of linoleum from a house in Sacramento for which they had sent. They asked the home merchant if he could duplicate the material for the same price quoted by the foreign house. To their surprise he answered yes, and not only duplicated the order but sold the goods before they left. He saved them time, money and trouble and made a commission that he was entitled to as a business man.

The goods were landed at the homes inside of an hour from the time of the order and the profits remained in the city.

Had the ladies desired some article that was not in stock, it could have been secured at the catalogue price with the freight added, which the purchaser has to pay in either case.

Most people seem to forget that when they buy from the catalogue houses, that they are dealing with retailers, who have to make a profit the same as the home merchant. The difference is that in many cases the home dealer deals with wholesalers, and can quote as close figures as the other man, and the benefit is that the town merchant receives the profits instead of the man out of town.

Whenever any one desires a catalogue article they should first consult the home dealer. It is almost safe to state that in every instance the goods will be secured just as desired and the price will be no more than quoted in the catalogue.

Give it a tryout and see in the town and yourself does not reap the benefit.

### New Styles

Call on Mrs. Knowles for the latest fall and winter styles of tailor made suits, raglans, Monte Carlo, macintoshes, dress shirts, silk petticoats, underwear etc. Two hundred styles. Six hundred samples to select from.

### Sold the Privilege

It was rumored on the street yesterday that A. Livingston had disposed of his saloon business to outside parties. This is not the case. He will be found at the old stand dispensing the best in his line.

However, he has sold the gambling privileges to other parties, who will take charge at no distant date, when the boys who wish to rush the tiger in his jungle will be given an opportunity that they desire.

### Kicked by a Horse

Yesterday while shoeing a horse, John McCrimmon, the blacksmith, was kicked in the side by a fractious animal and rendered unconscious. He was taken home and a physician summoned. While it is not believed that he is seriously injured, yet his injuries are of an exceedingly painful nature. His many friends hope to see him around o. k. in a few days.

### Notice.

No shooting or camping will be allowed on my property without a permit. Positively no feeding from barn or stacks allowed.

THEO WINTERS.  
THEO WINTERS.

When you want a Lucky Jim cigar

### Den, the Stamen

The Risdon Iron Works of San Francisco, has sent the following statement to the Appeal for publication:

In the issue of the 24th of August, of the Salt Lake Tribune, a Carson City correspondent writes the following:

"A Smelting Attachment: The Vulcan smelter being erected at Gardnerville, up Carson Valley, and very nearly completed and ready to run, has been ruthlessly attached for debt by the Risdon Iron Works, of San Francisco,—a lien of \$1890 placed upon it. The smelter has been longer than expected in the construction and has cost more—but was coming out all right and cannot fail to do so in the end. It is unfortunate that the company should be embarrassed in this manner just on the eve of starting up, but the difficulty will soon be adjusted and the smelter put into working operation."

In this connection, we wish to say this is a gross misrepresentation—and the Carson City correspondent, whoever he is, certainly owes the Risdon Iron Works an apology as we have not "ruthlessly attached" any one for debt in your neighborhood. We are not in the habit of doing this sort of thing.

Risdon Iron and Locomotive Co.

### Murderer Arrested

Train No. 3 which passed through Reno shortly after 12 o'clock this morning, carried Detective W. H. Welsh of the Canadian mounted police and his prisoner, Ed. Labelle, who was captured last night at Mahoney's construction camp near Wadsworth.

Labelle is a famous criminal. He is wanted for wholesale murder in the Klondike country. He is said to have murdered and robbed a number of people. Labelle partly confessed to having killed three men. He said he would sign a paper to the effect that he would return north alone and give himself into custody.

The Canadian detective had been following him through the Northwest territory, Washington, Oregon, Nevada and Idaho since July 26. The prisoner did not leave a very plain trail and the officer is to be congratulated upon his good work.—Journal.

### The Water Suit

Yesterday the U. S. court was in session on the preliminary steps of the big water suit between the Smith Valley farmers and Miller & Lux. The day was occupied in a motion to quash the service of subpoenas in a number of instances the names of the defendants were improperly made out. A large number of the defendants were on hand to look after their interests which made the court room look very business like.

The farmers are still anxious to settle the matter by compromise, and before the week is ended it is thought that they will know which way to turn in the trouble. If a settlement can be made out of court it will be to the advantage of all concerned, as from the present indications the suit will drag along for many years to come, and it takes stacks of hay to pay lawyers.

The work of tearing out the front of S. B. Cohn's store is keeping half a dozen men working busy. Steel girders have been ordered, and also a full glass front. When completed this will make one of the handsomest stores in the State.

N. Soderburg, the Carson attorney, has gone to Nome, Alaska, as counsel for his son in a mining suit.

There are 275 civil war pensioners in Nevada, the smallest number of any State in the Union.

The little precinct of Lovelock, Humboldt county, has 311 names on the poll-list so far.

### Shooting at Lovelock

A special to the Journal from Lovelock says:

A serious and probably fatal shooting affray occurred in this town at 6 last evening in Zunini's saloon. In all probability H. Granatti, an Italian employed in loading coal on the tenders of the work engines, will lose his life.

The man who did the shooting is named Harry Delamar. It seems that the two men were drinking a good deal and after wordy argument came to blows. Delamar went off to a neighboring saloon and washed the blood off his head and returned with a gun.

The argument was taken up again and from what can be learned from witnesses, Granatti made a rush at Delamar with a murderous looking knife. Delamar pulled his gun and shot him about half an inch below the heart, the ball going through the upper part of the stomach.

Granatti, immediately after being shot, walked to Dr. Asher's office, a distance of two blocks and a half before he fell.

His condition is critical, with the chances very much against him. Constable Walsh was immediately upon the scene and with the assistance of his deputy, Paul Reid, landed Delamar in the cooler.

### No Now

There will be an increased demand for good miners and laborers in this and surrounding localities within a few weeks at most, but at present there is not more than enough work for those who are here. The employing companies will inform the Bonanza just when to say that men are wanted. "Nuff said."

### Accident on the C & C

Word was received in this city yesterday that an accident had happened on the C. & C. R. R., in which Neil Ward, a locomotive engineer was badly burned by the explosion of gas in the fire box. The engines are all coal burners, which probably accounts for the trouble. Dr. Muiraker was taken out as far as Hawthorne on a special train to attend the patient. His summons to the scene leads many to believe that he is very seriously injured.

The hunting season is open and we have a large stock of all kinds of ammunition. The Fox Store 1w.

Davey & Maish have opened their delicacy counter and from this time on customers can find select boiled ham, tongue and other refreshing viands, that will save cooking at home.

## The First Fall Goods

### Are Beginning to Arrive

In order to make room for them the stock of Summer goods will be disposed of at further reduced prices

### Carpets

If you intend carpeting any of your rooms this Fall let us talk with you. We can do the work and save you money

## F. W. DAY,

Two Blocks West of the Ormsby House.

## TONOPAH POLITICS

### INTERESTING LETTER FROM THE BONANZA CAMP

#### The Fusion Ticket Meets Approval in Nye County

Ed: Appeal:—I am going to drop you a few lines regarding the political situation out here.

Despite the fact that within the past ten days two strikes of great importance to the future welfare of Tonopah have been recorded, the political problem is at present the paramount issue. Great interest was manifested in the work of the Democratic and Silver party conventions and the news of what had been done was anxiously awaited.

The ticket as nominated meets the hearty endorsement of Democrats and Silvermen here, of which there is a goodly number. In fact, Republicans in Tonopah are nearly as scarce as Hebrew hod carriers. At the coming election, Tonopah will figure very conspicuously. At present our citizens are in a quandary to know just where they are at, that is topographically. But the question will be settled within a very few days. It seems to be the prevailing opinion regarding recent developments, that this camp is in Esmeralda county by about three miles. This, however, is not definitely known or authoritatively conceded.

Sparks for Governor will carry weight to the ticket here and VanDuzer has a firm hold on the people. Tomorrow he is scheduled to deliver an address at the Labor Day festivities and will, no doubt, spread himself. This may be regarded as the first gun fired in the campaign, although politics cut no figure in the celebration.

Davis for Controller and Mann for State Printer, will not be overlooked by the labor unions. The chances of the two latter are very encouraging. Maute's active labors for union principles when a State Senator are not to be forgotten and Davis' careful and conscientious administration, together with his stand for the Miners' Union some years ago will prove invaluable vote getters this fall.

The remainder of the ticket is almost certain to carry Tonopah.

Tonopah's population may be regarded as about 45 per cent transient. The other 25 hails from various sections of Nevada. The Nevada contingent is certain to go Democratic, while it is just as much a certainty regarding the disposition of the transient. The camp is a silver camp and nearly every voter will cast a straight Fusion ticket.

Ormsby's contingent here are greatly pleased at Woodburn's nomination for District Judge. I am confidently informed that quite a few Carsonites will journey to the capital for the express purpose of dropping a ballot for the ex-Congressman.

Yours truly,  
"FUSIONIST."

### A Bad Fall

Yesterday while working on a telephone pole, Roger Heidenreich had a fall that put him out of commission temporarily. In spite of the fact that he fell nearly thirty feet, he came out without a scratch. While he was badly shaken up and pretty sore, he will be on deck again in a few days.
